

KIT UPGRADE ZIPPER LOCK WIRED LONG WIRE

Upgrade kit for Kockon Mach II base modules. Consists of a self closing ventilated fuel cap with lock with a built in electronic activation switch and LONG WIRE connection which can be used to trigger events upon fuel cap opening. Can be fitted through a rapid mounting procedure by the end user without having to remove the Kockon from its installed position. Wiring is 10 mt. long and enclosed in corrugated conduit.

Fits all MACH II base modules. Upgrade can be executed without proprietary tools by the end user.
